About Me

Informatics Engineering graduate with a strong interest in modern web development. Experienced in building full-stack applications using TypeScript, JavaScript, and C# (.NET). Familiar with developing RESTful APIs, working with databases, and using modern tools to improve development efficiency. Eager to contribute to building scalable and impactful digital products.

Experience

January 2024 – Present
Self-Employed – Remote

Independent Full Stack Developer

- Built and deployed multiple full-stack web apps (e-commerce, AI chatbot, task management) using Next.js, TypeScript, C# (.NET), and PostgreSQL.
- Implemented CI/CD workflows and cloud deployment via Vercel and GitHub Pages.
- Managed full project lifecycle from design to production independently.

September 2022 – November 2022
IT Intern

Department of Tourism – Kalimantan Selatan

- Administrative data processing & technical support for workplace devices.

Project

- Wir Forms – Modern form builder with drag-and-drop & conditional logic. Next.js, TypeScript, Firebase
